PROFILE

Computer Science student and Front-End Developer with a strong passion for UI/UX design, 3D visuals, and building distinctive web and mobile interfaces. Seeking a Front-End Developer role where I can turn creative design concepts in Figma and Blender into polished, responsive applications using React, React Native, and Flutter. Works earnestly toward every goal, learns new tools quickly, and follows through from initial design to working product.

TECHNICAL SKILLS

Design & UI: Figma, Blender (3D Modeling), UI/UX Design, Wireframing & Prototyping, Responsive Design, Custom CSS3
Languages: JavaScript, TypeScript, HTML5, CSS3, Dart, Python, SQL
Frameworks & Libraries: React, Vite, React Native, Expo, Expo Router, Flutter
Backend & Databases: Supabase (Auth, Realtime, Row-Level Security), PostgreSQL, AsyncStorage
Tools: Git, GitHub, EAS Build, VS Code

PROJECTS

Plan_.ed - Shopping & Errand Planner App Personal

Tech Stack: React Native, Expo, Supabase, PostgreSQL, AsyncStorage, EAS Build

- Designed and built a mobile shopping planner featuring custom light/dark themes, collapsible headers, and an interactive errand calendar with native reminder alarms.
- Created smart checklists with real-time cost calculation and a directory linking items to 4 major Pampanga malls.
- Implemented cloud and offline sync using Supabase and AsyncStorage, and shipped an Android APK via EAS Build.

C&J Real Estate - Property Showcase & Management Platform Personal

Tech Stack: React, Vite, Supabase (PostgreSQL, RLS), JavaScript (ES6+), EmailJS, Custom CSS3

- Architected a full-stack real estate platform and session-authenticated Admin Portal with Supabase for real-time property CRUD listings, status management, and lead tracking.
- Engineered an interactive showroom featuring dual-thumb price sliders, dynamic Philippine geographic selectors (phil-reg-prov-mun-brgy), and multi-property inquiry carts.
- Integrated automated client notification workflows using EmailJS and crafted responsive CSS3 Grid layouts achieving sub-second load times and fluid modal views.

HAUtogo - Real-Time Faculty Tracking & Class Management Collaborative

Tech Stack: Flutter, Dart, Supabase, flutter_map, geolocator

- Built a campus mobile app for Holy Angel University with an interactive map and sliding panel UI that displays live professor locations.
- Designed role-based weekly schedule views for students and professors, plus one-tap room navigation and next-class indicators.
- Implemented campus geofencing and full account authentication (login, password recovery, profile management) with Supabase.

EDUCATION

Bachelor of Science in Computer Science 2023 - Present

Holy Angel University

- **Dean's Lister:** 1st Year (1st Semester), 2nd Year (1st Semester), 3rd Year

CERTIFICATIONS

- **Responsive Web Design** - freeCodeCamp
- **JavaScript Essentials 1** - Cisco Networking Academy
- **AWS Academy Graduate - Cloud Foundations** - Amazon Web Services
